

Name: Senamile N Mlilo

Role: Project Manager

**Role description:** As a project manager, my duty is to oversee and ensure that the team works, under my guidance, efficiently and in a timely manner in order to achieve the set goals. This is achieved through ensuring that the project is well planned, and that realistic milestones are set. I am also responsible for the setting up of working policies. In addition, it means the proper allocation of resources, financial and human resources. Furthermore, my duty is to ensure that the product meets the specifications from the customer or consumer. Moreover, it is my duty to assign tasks to the members of my team. Lastly, my duty is to assist all teams or departments where they need help therefore ensuring that the software project is successful.
